

## 12/14-Cube Recycling Units

### Tank

<b>Volume:</b>	12/14,000 litres with movable partition (PED)
<b>Locking bolts:</b>	3 sets (manually operated)
<b>Ball valves:</b>	6" bottom suction (manual) 4" top suction (pneumatic)

### Water

<b>High-pressure pump:</b>	Uraca KD 716 or URACA P3 45
<b>Capacity:</b>	333 lt/min at 170 bar or 471 lt/min at 150 bar
<b>Hose reel:</b>	One hydraulic hose reel with 200m 1" or 200m 1 ¼" TP jetting hose One hydraulic hose reel with 50m ¾" and 60m ½" jetting hose
<b>Recycling system:</b>	JHL RECYcling typeB with Desmi pump

### Vacuum

<b>Vacuum pump:</b>	Wittig RFW 260
<b>Capacity:</b>	26,667 lt/m (90% vacuum)
<b>Piping:</b>	5"
<b>Cassette system:</b>	5" suction hose with hydraulic lift and double telescopic arm

### Accessories

<b>Lights:</b>	5 work lamps and 4 beacon lights
<b>Cabinets (near side):</b>	2 x Double stainless steel cabinets to the front and rear of hose tray
<b>Additional accessories:</b>	Stainless steel tool shelves, slops and hose tray
<b>Handywash:</b>	Handywash unit on near side

### Chassis

<b>Chassis type:</b>	Scania P500 CP20N 8x2*6 chassis Sleeper cab
<b>Chassis spec:</b>	Opticruise gearbox, rear air suspension, climate control air con, SatNav, reverse camera, remote central locking, roof mounted light-bar on cab.
<b>Gross vehicle weight:</b>	32,000kg

### Upgrades

<b>Revive upgrades over OEM:</b>	Revive Siemens operating system (fully rewired) All mounting and support brackets are reinforced All control panels and slops tray upgraded to heavy duty stainless steel All storage boxes replaced with heavy duty stainless steel versions Upgraded 8-function remote control system Hydraulic system enhanced to reduce RPM and improve efficiency
